ISTQB Certified Tester
certificate

ONLINE ISTQB AGILE TESTER EXTENSION

General Description

Agile Testing is a relatively new, but highly popular and used approach to software testing that follows the principles of agile software development as outlined in the Agile Manifesto. The Agile Tester Extension will give the tester the knowledge to be part of Agile testing teams and the skills and knowledge to achieve high performance.

The target audience for this course:

- Testers experienced with traditional SDLCs;
- Entry - level testers with an interest in agile testing;
- Experienced developers with a lot to a little knowledge of testing who work in agile projects;

Roles include testers, test analysts, test engineers, test consultants, test managers, user acceptance testers, and software developers.

Main topics

- Agile Software Development – the fundamentals of Agile Software Development as well as the aspects of Agile approaches;
- Fundamental Agile Testing Principles, Practices and Processes – the difference between testing in traditional and agile approaches as well as the status of testing in agile projects and the role and the needed skills of a tester in an agile team;
- Agile Testing Methods, Techniques and Tools - assessing the quality risks and estimating the test effort; techniques and tools;

Benefits

At the end of the course agile testers should:

- Collaborate in an agile team, being familiar with agile principles and practices;
- Adapt existing testing experience, knowledge and best practices;
- Support the agile team in planning test related activities;
- Assist in test automation;
- Help business stakeholders define understandable and testable user stories and acceptance criteria;
- Work and share information with other team members;
- An ISTQB Agile Tester should work effectively within an agile team and environment.

Price

Prices do not include VAT.

Price (euro/participant)*			
	Non-member companies (group discounts)**	ANIS member companies (10% extra discount)**	Individuals
1 – 4 participants	500	450	500
5 – 9 participants (5% discount)	475	425	
+ 10 participants (10% discount)	450	400	

* The participation fee includes: the course support and the adjacent materials.

** Discounts apply to the standard fee of EUR 500.

Certification

The exam is in digital format, in English and consists of 40 questions. Each question has only one correct answer. Passing score – 65% or 26 correct answers. The duration of the test is 75 minutes.

To take the ISTQB Agile Tester Extension Certification exam, the participant must possess the ISTQB Foundation Level.

The exam administration and acquisition of the ISTQB certificates are organized by ANIS, due to that a supplement fee is necessary.
